FIFTY CENTS, CASH WITH ORDER.

TO BID UNDERSTANDINGLY, THIS MUST BE READ CAREFULLY,

Coins and medals are sold at so much per piece, U. S. proof sets excepted. You cannot bid for *one piece* in a lot. If a lot contains ten pieces, and you desire to offer \$2 for it, make your bid 20c. The auctioneer will accept an advance of 1 cent up to 50c., then 5c. up to \$2.50, when 10c. is the limit. up to \$10, and thereafter not less than 25c. Hence any bid up to 50c. can be entertained, but after that the bid must be 55c., 60c., and so on. Such offers as 53c., \$1.01, and all intermediate figures are unavailable.

My Terms for buying are 10%, and I make no charge less than 25c.

 Auction Sales are strictly for cash. Parties unknown to me must send a deposit covering at least 25% of their bids, otherwise they will not be accepted.

Revise your lot numbers carefully, and the price as well, to be sure you are making the offer you desire and against the particular lot wanted. Do not make a lump sum offer for a lot, — they are always sold entire, — but the bid must be by the piece, excepting in the case of U. S. Proof Sets. There are no other exceptions unless definitely so stated in the catalogue.

Make *no corrections* or alterations of figures, *draw your pen* through all errors and make a *new entry*. Do not use a lead pencil; such marks become indistinct by handling. Avoid making small figures.

Kindly let your bids come in early; those arriving late are apt to crowd a large amount of work — and sometimes with confusion — into the last two days before the sale.

It is respectfully requested that remittances be made by *Exchange on New York*, the collection charges on small checks being quite an item, where there are so many of them. Patrons will be credited with the net amount received for their checks.

CATALOGUE.

FOREIGN SILVER, SIZE OF DOLLAR.

- 95 1 Cuba. 1897 Souvenir Peso. Female head. R Arms. Ex. fine.
- 50 2 Guadeloupe (1811) Gourde. 8 Rls. Chas. IV, 1808 Lima mint, from centre of which a diamond form 10 x 10 with four crenations on each side has been cut. CS. obv. and rev. with G cwnd. Fine; rare.
- 100 3 Tobago. Prior to 1825. Cut Dollar. 8 Rls. Chas. IV, 1797 M mint, from centre of which an octagon form, 11 mlm. with plain edges has been cut. Fine and rare.
- 00 4 See *Chalmers*, p. 102, and *Caldecot*, in B. N. J., page 292.
- 4 Mexico. Phil. V, 1733 8 Rls. Cwnd. arms sep. value and mintmaster's initials; date in legend. R Cross, with arms of Castile and Leon in angles. Klippe form. Good, though holed in the four corners. 30 x 38.

While this scarce piece is usually found in this form, it is also met with on a full circular planchet, though far more precious. There are several views to take when considering the piece in this mutilated form. It may have been a matter of theft, or that the coin was so designated (ultimately) to pass for a less sum or in a different locality. Yet the precious metal was welcome everywhere, and to keep the coins at home, the government may have adopted this means of reduction of weight. Again we have to consider that the rude and irregular "cob money" preceded this issue by many years; therefore, the modern circular and well perfected coin was possibly unwelcome and the clipping process was resorted to in imitation of pieces long and favorably known.

The Fonrobert Catalogue (1878), lot No. 6887, describes and illustrates the Peso of 1866 from the Guanaxuato mint. The late Adolph Weyl, in his catalogue, No. 104-106, fixed prices, 1892, offers one lot, 322, and quotes Fon. number as above. Mr. Benjamin Betts, in his work on the Imperial Coinage of Mexico (1899), mentions the coinage of the Peso at the mints of Guanaxuato, Mexico, and Potosi, in the year 1866 and at Mexico in 1867 *only*.

To the best of my recollection—and by records kept since 1897—I have yet to see the one having the mint-mark of Guanaxuato, while I have noted those from Potosi, in both 1866 and 1867. See my auction sale catalogues, Oct. 16, 1903, and Oct. 10, 1905.

A fact for reflection—and pretty strong evidence of rarity—is that specimens of the Peso from the Go. mint were wanting in the Anthon, Fischer, Skilton, Betts and Bastow collections, all of which were wholly or largely devoted to the coinage of Mexico, and no other of equal importance has appeared in this country.

A VERY UNUSUAL OFFERING OF COB, CUT AND COUNTERSTAMPED
MONEY OF THE WEST INDIES, CENTRAL AND SOUTH AMERICA.

- 50 57 Curacoa. $\frac{1}{4}$ Gulden. Script letter C in plain oval depression, CS. on $\frac{1}{4}$ of Holland Guld. Edges have 16 crenations. Fine. 1

- 75 58 **Curacoa.** 2 Reales? A cinquefoil CS. in plain circular depression, on $\frac{1}{5}$ of Spanish-Am. 8 Rls. Edges have 12 crenations. Fine. 1
- 60 59 — 3 Reales. 3 within a circular depression having a border of points. 9 coarse diagonal crenations on edges, on $\frac{1}{5}$ of Spanish-Am. 8 Rls. Fine. 1
- 50 60 — 3 Reales, similar to the preceding, the 3 is within circle, in a depression having a plain border. Edges have 9 fine perpendicular crenations. Fine. 1
- 60 { 61 — A set of the four preceding pieces. Fine. 4
- 62 — Another set as last. 4
- 45 63 — Four more sets. 16
- 40 64 — Ten each of the preceding, excepting the $\frac{1}{4}$ Guld. 30
- 41 65 — Another selection, precisely as last. 30
- 43 66 — Others, of the 3 Rls., same as lots 59 (6), 60 (16). 22

I feel that it is perfectly safe to state that never before has such a large offering been made of this peculiar "Cut Money," also known as Macaquina.

- 350 67 **St. Martin.** $\frac{1}{5}$ Peso. S MARTIN below, a bundle of arrows. CS. on $\frac{1}{5}$ cut from Spanish-Am. 8 Rls. Edges plain. Fine; rare. 1
- 33 68 **Cob Money.** Lima, 1736 8 Rls. (17)39 4 do. 2
- 27 69 — — 1731, '38 4 Rls. (the last holed), and 8 do. (date invisible). 3
- 26 70 — Potosi, 1739-51 1, 2, 4 and 8 Rls. 4
- 27 71 — — Another set, (16)97-1759. 2 are holed. 4
- 72 — — Others, 4 Rls., 2 do. (6), 1 do. (3). 3 are holed. 10
- 73 — Mints invisible, but all probably Lima and Potosi. 1, 2, 4 and 8 Rls. 1763-68. 1 holed. 4
- 14 { 74 — — 1 Real (3), 2 do. (2), 8 do. (3). 1 holed. 9

In no period since the art of coining began, has such a rude, coarse fabric been produced for a medium of exchange, as those offered in the preceding seven lots. Only portions of the legend, type, date, etc., are visible on any of the specimens, therefore the state of preservation has been omitted. Yet as a whole the lot exceeds any I have before catalogued in variety of type, date and letters of the moneyers, while the condition is quite up to the average.

- 50 75 **Counterstamped Coins.** Costa Rica, 2 Rls. Female head, 2 below. R A tree. The obv. has a square containing 9 compartments, the centre one with a star; all CS. on a Spanish 2 Rl. piece, 1795. 1

I believe all I have seen of this coin were stamped on the coins of Spain and not the Spanish-Am. issues. It is also notable that the compartment design is quite like that which has been attributed to Curacoa.

- 20 76 Costa Rica. 1846 2 Rls. 3 Mts. R̄ Tree, 2 - R. CS. on a Potosi cob piece. Fair; rare. I
- 27 77 — 1872, '75 Arms. R̄ Lion, CS. on U. S. Colombia $\frac{5}{16}$ or Half Dollar. Medellin and Bogota mints. Also 1885 Medellin, marked var. of each Colombian issue. Fine. 3
- 70 78 Guatemala. Carrera, 1860 2 Rls., CS. on obv. with letter "R" within a circle of pellets. Fon. 7468, where the piece is attributed to San Salvadore. Good; rare. I

It is known that the coins of Charlemagne were imitated — type and legend — by other countries and provinces for upwards of two hundred years. They are inferior in execution and there is a flatness or low relief not found in their prototype.

Mr. Lionel M. Hewlett, in his article on Anglo-Gallic coins, in the last number of the Numismatic Chronicle, without explanation or observation whatsoever, attributes this identical piece to Poitou, in the reign of Henry II, when he married Eleanor, Duchess of Aquitaine, and the first of the series was issued. It is illustrated on Pl. XVI, 4.
